

ANNUAL MEETING OF
MOUNTAIN VIEW ASS'N

The annual meeting of the Mountain View Livestock Association was held at Olds on Saturday, April 7th. The yearly statement showed a total of 64,160 hogs; 1028 cattle; 3853 sheep handled for a total of \$1,095,062.62.

A motion was passed asking the directors to give the organization more publicity in the press and by any other means possible.

A dividend of 15c per hog was passed on 1944 hogs to all contract holders on record at May 1st, 1945.

As our reserves are now more than sufficient to operate on it was decided to arrange a revolving plan and pay back the reserves in this way, starting with the first takings and pay back some reserves every year.

Mr. H.C. Larsen was appointed director for Didsbury east in place of S. O'Brien, who asked to be relieved.

Mr. Cliff Wheatcroft of the P. Burns Co. was present and was asked a number of questions.

GIBSON-JOHNSON

A pretty wedding was solemnized at the United Church Manse, Didsbury on Friday, April 6th at 2 p.m. when Verna May, daughter of Mr. and Mrs. Vern Johnson, became the bride of Mr. Howard H. Gibson, Rev. Whyte-Smith performed the ceremony and the attendants were Miss Erna Mack and Mr. Norman Mashinter.

The bride was dressed in a long white sheer gown and carried pink carnations. The bridesmaid, Miss Erna Mack, wore a two-piece light blue dress and carried carnations.

A reception was held at the home of the bride's parents immediately following the ceremony.

Mr. and Mrs. Gibson will reside at Sylvan Lake.

JEAN ROBERTSON
HONORED AT O.S.A.

About 300 attended the Banquet and Graduation exercises at the Olds School of Agriculture April 5th. About 80 students received diplomas in Agriculture and Home Economics.

Mr. James Murray, Toastmaster, charged the students to be of service as leaders in their home communities.

Hon. D. Bruce MacMillan, Minister of Agriculture, gave the main address of the evening. His topic was Canada's National Spirit, and he advised Canadians, and especially those graduating to accept their responsibilities as citizens so that the name "Canada" would continue to be as beloved and respected throughout the world, as our army, navy and airforce boys had made it in this war.

Miss Jean Robertson of Westcott, was honored by her fellow graduates in being chosen to respond to the toast to the girl graduates. She said her attendance at the O.S.A. had been the happiest winter she had ever spent. She knew she voiced the sentiments of the other girls in saying that living with girls of different backgrounds and cultures had developed a finer personality in them all. In closing she said, "Let us be a credit to the Staff, and let us benefit humanity from the course we have taken at Olds School of Agriculture."

Miss Robertson also won a special prize for work on the Year Book, Dramatics and Literary work.

RIGBY W. L. MEETING

With 12 members present the W.L. meeting this month was held at the home of Mrs. Alfred Cowitz. Plans were made to get a child's outfit of clothes together to send to the Handicraft Exhibit at the Provincial Convention next month, together with several other exhibits.

Mrs. A. Shannon was chosen as our delegate to the convention in Edmonton.

All arrangements were made for serving lunch at an auction sale in the district on April 16th, so let's hope the woman will show a smiling face that day.

After a lengthy business session, Mrs. H. Hoosegood gave a splendid talk on new discoveries in the medical field, and new methods of treatment of various diseases.

Lunch was served at the close of the meeting.

The May meeting will be held at the home of Mrs. A. Hogg.

FAREWELL PARTY FOR MR. AND MRS. ALCOCK AND FAMILY

A farewell party was held at the Alcock home on Wednesday evening, April 10th in honor of Mr. and Mrs. Alcock, Shirley and Phyllis, who left Thursday to make their home at Brooks, Alberta. Those attending were Mr. and Mrs. H. Gilmore, Mr. and Mrs. O. Gilmore, Mrs. E. Baptist and family, Eli Peterson, Mr. and Mrs. Curtis, Mr. and Mrs. Curry, Mr. and Mrs. Theison and N. Theison. Whist and games were played and the honored guests were presented with gifts.

ANNUAL COMMENCEMENT OF MOUNTAIN VIEW BIBLE SCHOOL

The nineteenth Commencement session of Mountain View Bible School at Didsbury, Alberta, which was held March 25 and 26, marked the completion of a very successful year. For the bi-annual service on Sunday afternoon in the M.B.C. Church, the Faculty and students took their places while Miss Jean Parker of Edmonton played that old martial hymn by Shurtloff, "Lead On, O King Eternal," after which the address was given by Rev. A. Traub, and especially directed to the graduating class of 1945.

Mentioning following was "Alumni Day". It was observed at the Bible School with the annual Fellowship Dinner of the Alumni Association. This association, which now has a membership of 128, was represented by many of its members and together with the guests of the school, numbering in all about 100, enjoyed a time of refreshment and fellowship in the school dining hall. This was followed by the annual business meeting during which plans were made for the further improvement and growth of Mountain View Bible School.

The closing activity of the commencement took place when, to a full house, Rev. E. Taylor of Calgary delivered the commencement address on the subject, "What Are You Looking For?" after which the members of the graduating class were presented with their diplomas, signifying the successful completion of the Bible Course given by the school.

During the services special numbers in song were given by Mr. and Mrs. Donald Traub from Gahndah, Mr. and Mrs. Harley Traub of Sunnyside, Mr. Walter Snyder of Didsbury, and the Ladies Trio from the Bible School, composed of the Misses Violet Lehman, Beverly Redford and Grayce Frey.

NOTES FROM THE EAST

Mrs. B. Woods and Clara, and Miss Zoek were guests at the home of her daughter, Mrs. Lynn Huserpeter, on Thursday last week, to celebrate the first birthday of Sharon Lynn.

Mr. Coates, Art and Gordon were visitors at the Calgary horse show.

Henry Troll was a Sunnyside visitor during the holidays.

Jeanne Coates spent the Easter holidays visiting friends in the Sunnyside district.

The Lone Pine dance on Friday night was a great success. The new floor brought jitter bugs and "stubble jumpers" from far and near.

Mr. Fred Metz and Mrs. Dorell and Evelyn were Olds visitors Saturday.

Mr. and Mrs. Mardon of Didsbury are moving back to their farm this week. Welcome home neighbors.

Mr. Hugh McLean attended the Old Fellows Lodge in Sunnyside on the 10th. He says they had big doings with eight candidates being initiated. Some of the candidates were from this district.

Miss Mary Page celebrated her 6th birthday on Easter Sunday with a tea party. Among those present were Evelyn Stewart, C.W.A.C. Currie, Racks, Calgary, Mr. and Mrs. Alex Stewart and family of Carstairs, Miss Olive Stewart of the Rosedale Health Unit, Didsbury, Mrs. B. Woods and family, and Mr. Pat Sprague and family. Tea and lunch were served with a beautifully decorated birthday cake, and a very enjoyable afternoon was spent.

Municipal Tax Rate
Set at 12 Mills This YearA.L. Hogg Elected Reeve;
B.C. Trimble, Dep. Reeve

The 1945 organization meeting of the Council of the Municipal District of Mountain View No. 250 was held in the municipal office, Didsbury, on Tuesday, April 3rd. A. L. Hogg was again elected Reeve, and B.C. Trimble his Deputy Reeve for the ensuing six months.

Mr. Hodgson was appointed weed inspector, and C.E. Reiler, auditor.

A delegation from west of Didsbury asked for gravel on the Westcott road but no definite decision was made by council.

A delegation was also present from Westcott asking for a grade to connect with the Carstairs road and Council will give this every consideration.

A petition was received asking for gravel on the Carstairs blind road, but no definite decision was arrived at by Council.

A number of tax consolidations were approved, in most cases settlement being obtained in full.

Two applications were approved for Old Age Pensions.

A grant of \$1000 was made to the Red Cross, to be divided equally between Olds, Didsbury, Carstairs and Hobb of Olds.

A grant of \$200 was made to the Institute for the Blind.

The N.E. 25-32-25 was rented for one year for pasture purposes to R. Hogg of Olds.

A resolution was passed instructing the secretary to apply to the Department of Public Works for a special grant of \$1000 to be applied on work on the road to the Neapolis Cheese Factory, east of Didsbury.

Rates of pay for labour were set at the same as last year, i.e.:
Single man, 50c per mile travelled;
Two horses, 70c per hour; Man and four horses, 90c per hour; Two-horse team, 20c per hour; Local Foreman 60c per hour; Extra man on grader or tractor, 50c per hour.

Maintaining by the Mile
Man and four horses on drag, 40c per mile travelled; Man and six horses on drag, 50c per mile travelled; Tractor on three-horse drag or 10-ft. blade, 50c per mile travelled; Tractor on 12-foot blade, 60c per mile travelled; Tractor on 10-foot blade and drag 50c per mile travelled; Small size

NOTES FROM THE WEST

At the meeting of the W.L.'s in Didsbury Saturday last, it was decided to furnish a four-bed ward in the new Didsbury hospital, at the cost of approximately \$712 and to put any money left over towards a new operating table, Mountain View, Lone Pine, Westcott and Rudby were all represented. At the close of the meeting Mrs. Hoosegood proposed a vote of thanks to Mrs. Eckel for the use of her home.

A shower was held at the home of Mrs. A.L. Hogg Wednesday last in honor of Mrs. Glen Evans. Quilt blocks were made for the guest of honor, who was the recipient of many useful and lovely gifts. Mrs. Glen Evans was the former Miss M. Pitt, teacher of the Elton school last year, and has come to make her home among us.

Mr. and Mrs. E. Parker were Calgary visitors for a few days last week.

MR. RAY WEBER

Mr. Ray Weber passed away suddenly at the home of his daughter, Mrs. Holmquist at Westcott, in his 73rd year. He was born at Waterloo, Ont., and has lived in the west since 1927. Surviving are two daughters, Mrs. G. Holmquist and Mrs. Willard Johnson. Also a brother, Amos, at Westcott, and four sisters, Mrs. Leva Wollens, Mrs. Nancy Sheldel, of Kitchener, Ont., Mrs. Lydia Fry and Mrs. Mary Berchert of Carstairs.

Funeral services were held at the Holmquist home on Tuesday, April 10th at 2:30 p.m. Rev. Earl Archer officiating. Interment followed in the Westcott cemetery with Herb Fisher in charge of arrangements.

MELVIN NEWS NOTES

There will be a dance in the Melvin Hall on May 24th, so please keep this date in mind.

Miss Olga DuPont visited friends in Calgary for a few days last week.

Mr. and Mrs. Sandulak (nee Margaret Gibson) and baby son of Drumheller visited with P.G. Johnstons over Easter Sunday.

Here's wishing a speedy recovery to Mrs. Carlson who is in the Didsbury hospital.

Mr. P. Daniels spent a few days in the district during Easter week.

tractor \$1.25 per hour; Medium size tractor \$1.50 per hour; Large size tractor \$1.75 per hour.

Estimates were adopted and the mill rates for 1945 were fixed by by-law, as follows:

Olds School Division, 15½ mills.
Red Deer School Div., 17 mills.
Wheatland School Div., 12½ mills.
Calgary School Division, 15 mills.

This is an increase in school mill rates over 1944, when the following rates applied: Olds S.D. 12½; Red Deer S.D. 12½; Wheatland S.D. 11; Calgary S.D. 12.

Olds and Didsbury Municipal Hospital rates were set at 1½ mills.

Municipal Rate Same as in 1944
The Municipal mill rate remains the same as last year and was again set at 12 mills on the dollar.

Schedule of values for the 1945 general assessment were adopted and will appear in our next issue.

Councillors Hogg, Fox, McCulloch and Trimble were appointed Municipal representatives to the Rosedale Health District.

Mr. and Mrs. A.L. Hogg, and Mr. and Mrs. Jas. Rapp were appointed representatives to the Didsbury General Hospital Board.

Agreed to supply gopher poison to ratepayers on the same plan as in former years, whereby the municipality will pay for one can of poison if a farmer pays for one.

It was reported that two reconditioned motor patrols had been purchased by the Municipality and it is hoped these will be in operation next month.

A by-law was passed allowing 10% discount on taxes if paid within 30 days from the issuing of tax notices, and 5% discount on taxes if paid before December 1, 1945.

Rental of municipal yard equipment was fixed at \$7.50 per hour to ratepayers and \$10 per hour to outsiders.

Part of the 1945 grader crew has been engaged and consideration is being given to applications of other employees.

DIDSBURY DAIRYMEN AT
MILKING DEMONSTRATION

On April 5th at 8 p.m. the dairymen of Calgary and district met in the Palliser Hotel to hear Dr. Hopsen, a prominent New York Veterinarian.

Didsbury was represented by Roger Barrett, Jack Wordie, Capt. Tom Clarke, Kevin Klein, Noah Swain, Tom Morris, Bill Morton, Road Clarke, Art Chamberlain, Ernie Cullen and Harvey Stevens.

The purpose of these demonstrations, explained Dr. Hopsen, is to help the dairymen overcome the manpower shortage by increasing his efficiency in faster milking and disease control.

At the meeting a milking outfit was set up, equipped with three rubber udders, each of which was supported by steel rods in the normal position the real udder would occupy if a cow were being milked. With this setup the procedure could be demonstrated, beginning with hot water wash, and manipulation of the udder, for milking into the test-cup during the unit can average of 3 minutes.

Following the test-cup timing the unit can and carrying and pouring the milk with the use of a transfer pail.

Dr. Hopsen highly recommended this procedure as a means of cutting down the very menialing Martini.

Following the fast milking demonstration the correct method of washing and sterilizing the milker was illustrated and a general discussion ended a very interesting evening.

LIBERAL NOMINATING
CONVENTION AT RED
DEER ON APRIL 18Will Contest Riding at
Forthcoming Election

W.H. Davies, president of the Red Deer Federal Liberal Association has announced that the next riding convention will be held Wednesday, April 18, to select a candidate to contest the Red Deer seat in the coming federal election.

Calling of the nominating convention was the result of an organization meeting held at Red Deer by which the executive recently, at which it was decided to contest the riding.

Opposing the Liberal candidate to be selected will be Harry L. Taggart of Olds, Progressive Conservative candidate; F.D. Shaw, Social Credit candidate and present member for Red Deer, and A.F. MacLellan, C.C.F. entry from Elmore.

Opening at 2 p.m., the Liberal convention is to be addressed by D.W. Clapperton of Calgary, who will speak on the Damsforth Oaks conference.

Harold Riley Jr. of Calgary will also address the meeting.

FUNERAL SERVICES FOR
MRS. MEYER ON MONDAY

Funeral services were held in Knox United Church, Didsbury on Monday, April 9th for Mrs. Lawrence (Pearl Lillian) Meyer, 52, who died Friday at her home east of Didsbury. A solo was rendered by Mrs. Saunders and W. Fullerton officiated, assisted by Mr. A. Scott, Pallbearers were W.A. Ausubus, D.M. Wilson, C. Quigley, W. Schmidt, B. Parker and J. Farrell. Interment followed in the Didsbury cemetery with Didsbury Funeral Home in charge of arrangements.

Born in Lakefield, Minn., Mrs. Meyer came to the Didsbury district 24 years ago. Surviving are her husband; three sons, Gordon, Glen and Neville all of Didsbury; two daughters, Mrs. H. Anderson and Shirley, both of Didsbury; also her father, mother, six brothers and three sisters in Ontario.

LINCOLN REITZEL WEBER

Mr. Lincoln Reitzel Weber of Bergen County, Didsbury on Monday, April 8th in his 32nd year. He was born at Elmer, Ont. and was married in 1905 to Miss Copeland of St. Jacobs. They lived at Chilliwack for a few years before coming here in 1915.

He is survived by a son, Elsworth; and a daughter, Verna, both at home. His wife predeceased him in 1941.

Funeral services were conducted by Rev. Hubermehl, assisted by Rev. Oscar Snyder and Rev. Arthur Eby in the M.B.C. church at Bergen on Monday, April 8th at 2:30. Interment was made in the Bergen cemetery. Pallbearers were: Ira Gamble, John Davidson, Albert Olson, A. Lund, L. P. Barker and Fred Tomlinson.

Herb Fisher was in charge of arrangements.

ZELLA WHIST CLUB

The Zella Whist Club met at the home of Wilbur Jankins for the last time of the season, with Mrs. Bill Turnbull as hostess. Eight tables of whist were played. Ladies' first prize went to Mrs. Spooner, and consolation to Kathleen Eggen. Men's first prize to Mr. Choley, and consolation to Gilbert Gourdin. The travelling prize was won by Mrs. Choley.

The Club has turned in \$71.50 to the Red Cross, this being the sum raised during the winter.

Progress In Medicine

IT IS EXPECTED THAT THERE will be many changes in our way of living when the war is finally ended. Some progress that has been made will be very sweeping in character, others feel that too much is anticipated from the secret scientific and mechanical discoveries made during the war, and that we may not be entering upon quite the ultra-streamlined and mechanized world which is sometimes pictured for us. There is one field, however, in which we may hope for advances, which will be of great benefit to mankind, and that is in the field of medical science. Enough is now known of the progress which has been made in medicine during the war to make it apparent that when all this new knowledge can be used for the benefit of the population as a whole, it will help greatly to raise the standard of health throughout the country.

Many Found Not Physically Fit

All advances in medicine have not been related to improving the methods of treating disease. Increased emphasis is continually being placed on the value of what is known as preventive medicine, and much has been done in Canada in recent years to broaden the courses in health education given in the schools, and to educate the public generally in matters connected with health and nutrition. The need for action in this regard has been brought home to us by the startling facts concerning the standard of health here as revealed in the statistics made public regarding the number of men rejected by the army for physical reasons. These figures show that up to March 1944, only 468,303 men out of 1,064,888 who were examined proved to be in "A" category. Out of the remaining 596,585 slightly over 300,000 were found to be unfit for military service of any kind.

Greater Sense Of Well-Being

When such a large percentage of young men of military age are found to be in poor physical condition, the question is raised as to the standard of health among the white population, and it is concluded that among other age groups there would be found a similar, or perhaps more serious situation. Dr. Morris Fishbein, editor of the Journal of the American Medical Association, stated during a recent visit to Canada, that the concern of medical scientists today is "not only the doctrine of freedom from disease, not only the doctrine of barely living but the doctrine of living with vim, vigor and vitality." This concept of a future in which people may enjoy at all times a greater sense of health and well-being is one to which we should aspire as individuals and as a nation.

Found Good Market What Radio Has Done

Disposed Of Tin Hats And Wooden Rides

War Assets Corporation whose headquarters usually come from efforts to dispose of surplus war materials, revealed that it had run into a shortage of First Great War steel helmets and dummy wooden rifles—and at the same time it paid tribute to an unknown Vancouver boy for solving a disposal problem.

The corporation announced that 19,000 of the old "tin" hats which had been declared surplus seemed destined to be sold at a fraction of a cent each as scrap after suggestions for their use as flower pots, bird baths, feeding bowls for calves, hen's nests and a variety of other things had been found unfeasible.

Then in the window of a Vancouver store whose owner had offered to display some of the helmets, the juvenile genius saw the helmets and "the price fitted the purse." In two hours all the helmets in the store were gone and 18,966 tin hats had been disposed of to volunteer junior command across the country.

The corporation says it can fill orders for 50,000 more if it can find them.

Similarly, 47,000 dummy wooden rifles originally designed for the training of cadet corps became surplus and were grabbed off by the kids "for the price of a sundae."

Women In Jobs

May Take On Heavy Work In Machine Shops

A survey just completed shows a total of 451 women employed in Canadian National Shops roundhouses, coach yards and car repair tracks throughout the system. Some of them are boiler-maker welders, car rollers, blacksmith helpers and electric crane operators.

Others are helpers to machinists, sheet metal workers, boiler-makers and carmen, and the remainder are classified as labourers, steamfitters, car porters and a turntable operator.

PRACTICALLY HARMLESS

In the matter of the common cold, a topic second only to that of the weather, one of the doctors is out with a comforting bit of news. Few of the remedies we take for it do us much harm.

The oldest lock in existence is an Egyptian lock found in the ruins of Nineveh.

Price Control And Rationing Information

Q—My wife and I are planning on moving to the city of Victoria. We would prefer to live in a small apartment. Will we be allowed to take up residence there?

A—Any householder planning on living at Victoria should write to the Emergency Shelter Administrator in that city for full particulars of the regulations which apply to Emergency Shelter Areas. Other cities controlled by the Emergency Shelter regulations are Vancouver, West Vancouver, Hamilton, Toronto, Hull and Ottawa.

Q—If we are to use the extra preserves coupons for canning sugar, for commercially canned fruits and jams during the preserving season does that cut off our regular amount of preserves coupons? I can only find 23 preserves coupons altogether in the book and I understand that 20 of these have been earmarked for canning sugar.

A—When all 23 preserves coupons have been declared void, other coupons in ration book five will be declared valid for preserves or canning sugar.

Q—Are coupons deleted from ration books issued to discharged members of the armed forces, deleted from the date of discharge or the date of application?

A—Coupons are deleted from all ration books up to the time the ration book is applied for, as it is assumed that the applicant had no prior need of ration commodities.

Q—Are fur coats controlled by the Wartime Prices and Trade Board? The prices of furs vary so very much.

A—The prices of fur coats are not controlled by the Board. Each coat displayed must have a price ticket attached stating the price of the coat and the correct fur name.

Q—Please send your questions or your request for the pamphlet "Consumer's News" or the Blue Book in which you keep a record of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Definite Connection

Between Red Cross Drive For Funds And Butter Ration

There is a very definite connection between the butter ration now in effect in Canada and the drive for funds recently made by the Canadian Red Cross.

Every week the Red Cross sends from Canada 140,000 pounds of butter to war and liberated countries. In each box is a one pound tin of butter, a one pound tin of whole milk powder and a quarter pound package of cheese. That may not sound like a great deal but if the dairy products contained in a single package are multiplied by 140,000 and that amount is multiplied by the 52 weeks in the year, it represents a sizable quantity of dairy products.

As a matter of fact, the milk or butterfat required to supply Red Cross parcels alone is sufficient to make about 10,134,000 pounds of butter annually enough to supply the total yearly butter ration of any Canadian city of 400,000 persons, or about two weeks supply for the entire population of Canada.

An elephants heart has a circumference of five feet, and may weigh over 60 pounds.

TIRE? STIFF?

SLOAN'S LINIMENT

FOR FASTER RELIEF

JACK MINER'S BIRD SANCTUARY—A winter scene on one of the ponds of the world famous Jack Miner Bird Sanctuary, Kingsville, Ont. Not only do the ducks and geese visit this bird haven in the spring and fall, but several thousand spend the winter and are fed by Jack Miner's three sons, namely, Jasper, Ted and Manly, who are carrying on the sanctuary activities with more enthusiasm than even did their late father, if that be possible. The Jack Miner Sanctuary, for over forty years, has been saving a nest egg supply of bird life for the continent and its example has been copied in not only U.S. but in many foreign countries. In Canada his bird sanctuary has proven to be one of the greatest attractions and before Jack Miner, O.B.E. died, he for several years was rated "Canada's best known private citizen." As long as the Jack Miner Bird Sanctuary stands, boys and girls will be able to see bird life alive instead of having to go to a museum to see dead and extinct specimens.

Captains Promoted

J. D. Storie L. L. Dunsmore

In preparation for its 1945 growth, Trans Canada Air Lines announces, through B. A. Rawson, superintendent of flight operations, the appointment of Captains J. D. Storie and L. L. Dunsmore, as check pilots. Captain Storie and Dunsmore will be based at Winnipeg headquarters and will assist in the intensive training program TCA is embarking upon, involving ex-service R.C.A.F. personnel.

The Port Of London

Played Very Important Part In Western Invasion Of Europe

A wide impression that since the bombing raids of 1940 the Port of London had been unable to take a major part in military service will be dispelled by the publication of details of what the port accomplished in preparation for the western invasion of Europe and in supplying the needs of the services for some time after D Day.

Between the beginning of June and the end of August there were loaded and despatched from the Port of London over 311,000 personnel of the British Liberation Army, over 123,400 vehicles, and over 666,000 tons of general stores, including ammunition. Only a short time was allowed for preparation, and the working of commercial ships proceeded simultaneously. The loading of 2,000 ships was involved, and the tidal conditions of the Thames rendered necessary extremely fine calculation and organization for docking and unloading of the fleet of vessels in order to avoid delay and confusion.

The successful carrying out of this great task was a tribute to the trade unions and to London dockers, who during the worst period of the day-and-night flying bomb assault worked as enthusiastically, handling astonishing tonnages daily to keep pace with the finely cut time table.

Another contribution of the Port of London was the construction of five out of eight and a quarter miles of caissons for the artificial port of Arromanches. The caissons were built in dry docks, wet docks, and temporary river-side basins—London Times.

Globe Trotter

Great Britain's Prime Minister Has Travelled Extensively During War

Prime Minister Churchill, most travelled statesman of the war, has travelled some 150,000 miles in his journey to further United Nations planning efforts for war and peace.

He has met President Roosevelt nine times and Marshal Stalin four, conferred with Gen. de Gaulle in France and President Chiang Kai-shek in Cairo. He has conferred in London or overseas with the government heads of the British Commonwealth, all the European Allies, President Ismet Inonu of Turkey, Premier Nasser of Egypt and Premier Ali Shari' of Persia.

He has crossed the Atlantic 10 times, visited the United States five times and stopped briefly in Canada, Russia, Persia, Egypt, Morocco, Turkey, Cyprus, Tripoli, Algiers, Malta, Italy, France, Greece and Gibraltar.

Campers cook their meals over a steaming crack in the ground, and sleep in steam-heated tents, in the Valley of Ten Thousand Smokes, Southern Alaska.

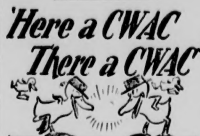

Noted Type Designer

F. W. Goudy Honored In New York On Eightieth Birthday

Frederic W. Goudy, noted type designer, is 80 years old. To celebrate the occasion, the American Institute of Graphic Arts and two other societies, the Typophiles and the Distaff Club, gave a dinner in his honor at the Hotel Anshamster in New York.

At his home in Marlboro, N.Y., Mr. Goudy said that he was working on the design of his 121st type face. He thinks that the number of type faces he has designed may be a record. At least, he knows of no other man who has designed as many as a hundred.

Recently, Mr. Goudy said, he had been compelled to refuse an invitation issued to him by Ethiopia to design a new Amharic type face for use in that country. Last summer he completed the designs for a new Hebrew type face for the University of Palestine.

PROMOTED—

Two Saskatchewan girls recently received promotions overseas. L. Cpl. Lena "Lynn" Goulet, Shaunavon, Sask., was promoted to the rank of corporal and Pte. Ruth Allen, Rutland, Sask., was appointed to the rank of lance corporal. Both girls overseas for 18 months, have served with the No. 1 Static Base Laundry Unit. Cpl. Goulet has since been transferred for duty as corporal in charge of the C.W.A.C. barracks.

FROM BALLROOM TO BARRACKS

Diminutive Captain Mariah Moshier, Officer Commanding No. 106 Depot Coy. C.W.A.C., has had a variety of interesting paths in her size 3½ shoes. A former ballet dancer, Capt. Moshier was one of the first nine Nova Scotians to enlist in the C.W.A.C., as well as one of the first group of C.W.A.C. officers to go to England on exchange duty. While in New York, Capt. Moshier was presented to Her Majesty, and travelled extensively in the British Isles. A sports enthusiast and an accomplished ballet dancer, Miss Moshier studied physical culture and Russian ballet in New York, while majoring in psychology at Columbia University there. Since her enlistment in the C.W.A.C., she has been stationed in both Victoria, B.C., and Halifax, N.S.

Daughter of Mr. and Mrs. Malcolm Moshier, Halifax, Capt. Moshier is considering a post-war return to the ballet theatre in a choreography-production capacity. Intensely interested in the general development of a Canadian culture, Capt. Moshier looks forward to the day when Canada may boast her own School of Ballet.

Miss Helen Ruth Swift, Winnipeg, daughter of Mr. and Mrs. James Swift, Assiniboia, Sask., enlisted in the Canadian Women's Army Corps at Fort Osborne Barracks, Winnipeg, recently. Miss Swift, born at Swift Current, Sask., had been employed in Winnipeg as a children's nurse for 6½ years prior to her enlistment.

MEET A CWAC—

L. Cpl. Bernice Bergstein in Weyburn and Regina, doesn't have to "Watch the Birdie" job, but she does have a lot to do with the resulting pictures. The only dark room assistant in the Public Relations Office at Military District No. 12 Headquarters, she is also the only CWAC in Saskatchewan to do this type of work. In order to qualify for her job L. Cpl. Bergstein attended a course in photography last fall, sponsored by the Canadian Legion. Receiving added instruction from the photographic officer, she learned to do developing, printing and other dark room work. L. Cpl. Bergstein enlisted in the C.W.A.C. in January, 1944, at Regina. Following her basic training at Vermilion, Alta., she was employed as a clerk in M.D. 12 Headquarters until April, 1944, when she was taken over the staff of the Public Relations Office. She has one sister in the C.W.A.C., Sgt. Margaret Bergstein, employed in Regina, and a brother overseas. One brother has returned from overseas, and is now discharged from the army. Prior to her enlistment, L. Cpl. Bergstein attended the Balfour Technical School in Regina.

GRADUATE—

A large number of Western girls were listed in the latest class of graduates from No. 3 CWAC (B.T.C.) Kitchener, Ont. Included among them were: Ptes. G. E. Brady, McCreary,

If you do—cheer up. Thousands have found that BUCKLEY'S STAINLESS WHITE RUB, made by the makers of BUCKLEY'S MIXTURE, brings fast, comforting relief from any or all of them. In fact it must bring relief faster than anything you have ever used or money back. Sold everywhere. If your dealer is sold out send 50c for direct to W. K. Buckley Limited, Toronto.

BUCKLEY'S STAINLESS WHITE RUB

SMILE AWHILE

Wife—"Do you think the mountain air will disagree with me?"

Hubby—"I doubt it if I would dare, my dear."

"There's no need for you to shout," said the dentist. "I haven't touched your teeth yet."

"No," said the patient, "but you're standing on my corn."

"I hope to get on, sir, I'm taking a correspondence course to learn how to make more money, sir."

"Hm! Well, it's just too bad for you, Jones. I'm also taking one to learn how to reduce expenses."

He (on the telephone)—"Hello, dear. How about our having dinner together this evening?"

She—"I would love to."

He—"Well, tell your mother I'll be over about seven o'clock."

"I despise a hypocrite."

"So do I."

"Now, take Jackson, for example. He's the biggest hypocrite on earth."

"But you appear to be his best friend."

"Oh, yes. I try to appear friendly towards him. It pays better in the end."

"Jane, dear," said the fond mother earnestly, "I can't think why you don't get on with your young man. He's all right in his way."

"I know, mother," replied the daughter, "but he's always in mine."

Tourist: "What a quaint little village! Truly one of the world is ignorant of how the other half lives."

Native: "Not in this village mister; not in this village."

"What do you think of government ownership of defence industries?"

"I'm for it. When the government owns everything it will have to pay the taxes itself."

Doctor—How's the pain in the leg?

Patient—It's getting better.

Doctor—How's the pain in the arm?

Patient—It's better, too.

Doctor—How's the pain in the neck?

Patient—Oh, she's out playing bridge.

Conservation Of Wild Life In Canada Is Very Necessary For Our Future Well-Being

BETTER use of Canada's surplus wildlife was discussed at a recent wild-life conference held in Ottawa, where it was emphasized that in reducing wildlife populations in any manner, wastefulness should be avoided. It was pointed out that at present full use is made of very little of the big game shot by hunters in Canada, with the result that a large quantity of the finest leather and meat is left to rot in the woods. When a deer or moose is killed, in many cases only the head and a few choice cuts of meat are saved.

In addition there is a regrettable waste of wildlife fatally wounded but never recovered, caused by poor shooting, shooting beyond the proper range, and lack of a retriever. Another, and one of the most devastating causes of wastage of wildlife, is fire. With the approach of spring it is an opportune time to remind all who are interested in the preservation of wildlife that every possible care should be taken in the use of fire in the woods or open spaces.

In the not very distant future the full use of all the natural resources may be necessary to provide the maximum employment and support the maximum human population in Canada. The waste or wanton destruction of any of these resources may have serious effect on Canada's ability to rehabilitate successfully her ex-Servicemen and women, and war workers. It is felt that now is the time to develop methods of avoiding waste and planning greater conservation of the resources of the wildlife, intelligently managed, has a definite value to the well-being of the Canadian people.

The importance of Canada's wild-life resources in the post-war period was stressed by many delegates attending this conference. When it is remembered that more than 90 per cent of the total area of Canada is capable of supporting wildlife and that on more than half of the area it is still the chief crop, it is quite apparent that this resource is going to provide an important item in long-term development following the war.

Wildlife values in respect to fur trade, the tourist and sporting trade, are permanent, and recoverable, if managed wisely. No doubt many ex-Servicemen will find helpful and gainful employment after the war in such occupations as guides for anglers and hunters, oarsmen, game wardens, wildlife research workers and conservationists. Many of those engaged in other pursuits will wish to find their relation in hunting and fishing, or just studying wild creatures in their native haunts. A new atmosphere of peace, far removed from the turmoil of war, wildlife can also be made one of Canada's chief tourist attractions. All of which adds up to the need for careful husbandry and intelligent management of this important resource.

At the present time hundreds of thousands of muskrats are being trapped for their valuable pelts. Most trappers realize that the dressed carcass has a definite market value as food. If proper methods of dressing and handling this important source of wild meat supply were more generally known, the use of the muskrat as a food might increase rapidly. A booklet containing more than a dozen recipes for cooking muskrat meat has been issued by the Department of Mines and Resources at Ottawa, with the object of increasing the consumption and reducing the enormous wastage of this palatable little "Marsh Rabbit," as it is sometimes called.

Heavily Bombed

Corporation of London Will Try To Restore Ely Place

A corner of old-time London may disappear after the war. It is Ely place, Holborn, which has had its own head's gateway and night watchman for centuries past.

The Corporation of London is re-planning the area, which has been heavily bombed. Ely place is under the control of six commissioners and the police do not enter it unless they are specially summoned. Some of the buildings were built in the sixteenth century and one of them still looks as if it should form a setting for a Shakespeare play. Before the war visitors to London used to gather at night to hear the watchman call out "Past 10" or whatever hour had just struck.

The Holborn Borough Council is making representations to the corporation in favor of the preservation of Ely place in its entirety.

Crackers and milk, crackers and tomato juice or crackers and hot bouillon are nutritious and healthful snacks. Crackers are one of those foods which are jam-packed with energy. They go perfectly with almost any type of beverage, and since they require no preparation, the children can serve themselves.

Devastating Weapon

Rocket Barrage Now In Use On Western Front

One of the world's most devastating weapons, the rocket barrage, is now in use by Canadian and British troops on the western front. Only recently off the secret list, and with some features of its construction, operation and firepower still withheld, the rocket barrage is a development from the highly successful rocket barrages laid down by the Navy at Azio and Normandy, and from the rocket projectiles carried by aircraft. Canadian artillerymen led by Lt.-Col. W. E. Harris, of Barrie, Ont., now direct representative of the Department of Veterans Affairs at London, Ont., had a hand in developing the rocket barrage to its present potency, where a blanket of rockets laid down on enemy positions can completely demoralize the defenders. The barrage is laid down by a group of rocket projectors. In each group there are 12 projectors or "guns" each having 32 barrels. This array gives a concentration of fire comparable to that of 280 artillery pieces firing 100 pound shells. Although considerably smaller, the rocket has a burst as effective as the medium artillery shell, and a barrage can be fired by 200 men against the 3,000 men necessary to lay down the equivalent fire power from medium artillery. It is stressed that rocket barrages do not suppress artillery for firing on specific targets since artillery fire can be more accurate. For saturating enemy-held ground with high explosive, however, the rocket barrage has already proved itself a devastating weapon.

HAS ITS DRAWBACKS

The possibilities of television soon after the war are under frequent review. Whatever else may be said of television, says the Port Arthur News-Chronicle, it will be impossible to look at the machine and the newspaper too, combining them as the radio and newspaper are now so often combined. The eye strain of watching the flickers in the home will also be a factor.

Painted in white letters 30 feet high, direction signs and place names for guidance of airplanes are visible from an altitude of 5,000 feet on clear days.

MOVIE PRODUCER—Only Chinese woman theatrical producer in the world, Honolulu-born Li Ling at once demonstrated her versatility again.

Despite a regular routine that includes broadcasts, lectures, and the direction of affairs connected with China relief and the Allied cause, she found time to write and have published a book for youngsters, "Children of the Sun in Hawaii." She is known for her work as co-producer of "Kikuan," a documentary film of China which received a Hollywood award.

Has Now Retired

Camel Makes Its Last Trip To Shrine At Mecca

The world's most honored camel, a beast which has once every year for two decades carried the Holy Carpet from Cairo to sacred Mecca, has retired.

The camel will have a life of ease and comfort now until death. Once each year for the past 20 years the camel has carried the litter with its richly embroidered draperies to the Moslem shrine.

When it returned this year, Premier Ahmed Maher Pasha, representing King Farouk, carried out the aged custom of reverently touching its bridle for the last time.

For the remainder of its life the Mahmal camel will be kept in the royal pastures of King Farouk's estate at Iqsham.

Its companion in this life of leisure and quiet will be a very old camel which last summer broke away from a man who was leading it to the slaughter-house, and took refuge at the Aladin royal palace. That act saved its life. It was ordered that it would not be killed, but retired.

When this gaseous earth was in its infancy, it spun on its axis some six times faster than it does now, and days then were only four hours long.

Canadian Girls

Who Are Working Overseas With Canadian Red Cross Corps

A primus stove does not seem like a life-saving invention, but in military hospitals in France it turned out to be just that, according to information received from a Canadian Red Cross welfare officer in France, Miss Ruby Collett. In one afternoon and evening, 20 operations were performed on wounded soldiers that were brought into this advanced medical base. Instruments were sterilized over the little stove that had been furnished by the Red Cross when no other means of coping with the situation were available. "The nursing sister said it would have been impossible to perform these operations without that little stove," Miss Collett writes.

Miss Collett is one of a group of over 500 Canadian girls who are working overseas as volunteers with the Canadian Red Cross Corps. Working in co-operation with the Canadian Army Medical Corps is one of their important jobs, but from Newfoundland to Italy they are serving the fighting men in such jobs as driving ambulances, visiting the sick and wounded in hospital and bringing them comforts and necessities, teaching handicrafts and doing jobs too numerous to mention. "I take my hat off to the Red Cross," writes Corporal Howard Wesley, recovering from wounds in No. 3 Canadian General Hospital in Italy. "They do a fine job. Every day we are visited by a Canadian Red Cross welfare officer. She always has writing materials, stamps, cards, books. Every soldier on entering the hospital receives a little bag containing washcloth, soap, razor, toothbrush and powder. The Canadian Red Cross is certainly good to us."

Fully trained along the lines of a combat soldier, living in battle dress and carrying their possessions in 60-pound packs on their backs while in "training," these Canadian girls are present wherever servicemen need them.

"Your organization has supplied women of great adaptability and resourcefulness and of excellent qualifications," stated Lord Bennett, former Prime Minister of Canada, in a cable to the Canadian Red Cross. "However, they have won the commendation and admiration of the appropriate authorities."

A VALUABLE DIAMOND

The largest diamond ever discovered in East Africa was found recently in the Shinyanga district of Tanganyika. The colonial official said it weighs about 12 carats, and is valued at \$60,000 in its raw state. About 10 per cent will be lost in cutting.

Because of the ever-present danger of shocks overturning canoes, the mail at Nainafu, Tonga, is towed to ships in sealed tin cans.

Unlike most of the cat family, tigers swim well and like water.

Designer Of Britain's New Super Bomb Has Worked Long In Developing New War Weapons

BARNES NEVILLE WALLIS, 57-year-old designer of Britain's new 22,000-pound bomb, is a non-smoking vegetarian, given to introspection and devoted to domestic amenities—precisely the sort of man you would pick as most unlikely to have anything to do with devising an artificial earthquake.

Reliable Charts

Valuable Work Of The Astronomers At The Royal Observatory

Such phenomena as changes in the Earth's magnetism and sun spots have a direct bearing on the bombing of Berlin and the torpedoing of Japanese ships. For they affect the accuracy of the navigation of British and Allied ships and aircraft.

Thus the work of the astronomers at the Royal Observatory is helping to place the bombs and torpedoes at the exact spots intended. For the astronomers, among other things, record the variations in the compass caused by changes in the Earth's magnetism and, once every five years, complete a new set of magnetic charts of the whole world for navigators.

As the changes in the Earth's magnetism cannot be predicted accurately, continuous observations are needed for the construction of reliable charts.

Experts working in close contact with the Admiralty and the Air Ministry under Sir Harold Spencer-Jones, the Astronomer Royal, are making a continuous photographic record of these variations. The observations, which started at the Royal Observatory in 1840, were at first made visually throughout the twenty-four hours of each day, but the introduction of photography in 1848 made this painstaking method obsolete.

Certain changes in the Earth's magnetism were found to be connected with the frequency of the appearance of sun spots. The Royal Observatory, therefore, photographs the sun every day, weather permitting, and has done so since 1874. On those days when the sun is not visible in Britain, photographs are obtained from the Observatories at the Cape of Good Hope and Kodaikanal, near Madras. Photographs of the sun are therefore usually available for every day of the year.

The work has a vital bearing on radio communication. For instance, a solar eruption or flare was found to be connected with bad radio reception, especially short wave, which sometimes suddenly fades out. It was also found that solar flares are often followed by a magnetic storm, which agitates the compass and upsets telephone and telegraph and radio transmission.

The Observatory is therefore able to warn Bomber Command when a magnetic storm is likely to interfere with navigation and radio communication. Such data is also helpful to the Army for survey work. A magnetic chart is used for gun-laying to ensure that the true bearing of the gun can be determined from its compass bearing.

Much investigation remains to be done, especially in the middle of oceans where the Earth's magnetism is still not accurately known. A special non-magnetic ship, the "Research," built by the Admiralty to check on magnetic changes, atmospheric electricity and oceanography to meet the needs of navigation was launched in 1939. When the "Research" sails after the war it will be possible to fill in some of the gaps that remain.

Stocks Are Ample

No Immediate Danger Of Tea And Coffee Being Rationed

Stocks of tea and coffee in Canada are such that with normal consumption there is no danger of rationing of these beverages being reintroduced for at least another 12 months. F. T. W. Saunders, deputy co-ordinator of manufactured goods, prices board, said.

He was commenting on a panic buying of tea and coffee following rumors that rationing was to be resumed. Mr. Saunders said the rumors were entirely without foundation.

GERMAN WINNERS

If the Germans can whine, while the war is on, what kind of a whine will it be when the heat is applied to the whole Nazi works. Without doubt, says the St. Catharines Standard, there will be a cleverly conceived and smoke-screened campaign launched in due time, to gain sympathy and commiseration among the people throughout the world foolish enough to listen to German pleas for mercy.

Britain honors her scientific as well as her military heroes and Mr. Wallis has won plenty of adulation, but to his wife he is as dangerous to have around the house as a cellar full of TNT.

Members of his family disclosed after news of the huge bomb had staggered readers over the world, that they had been extremely anxious for Wallis during the period of the bomb's tests.

The whole trying business sometimes got on Wallis' nerves, too, his wife said in relating that a number of times he had cried out in his sleep, "bombs! bombs!" and jabbered a string of technical terms relating to explosives.

Mr. Wallis one of the best aircraft designers in the business, has worked quietly for a long period with R.A.F. authorities in developing new ideas for smashing strategic targets in German territory. His name is linked with creation of some of the Allies' most valuable weapons.

He designed the 12,000-pound armor-piercing bomb which sank the Nazi battleship Tirpitz and the special bombs which burst the Ruhr Mohne dam in the daring raid led by the late Wing Cmdr. Guy Gibson, V.C.

It was when the dam was broken that Mr. Wallis, who usually clings to his reserve, abandoned all dignity. He was in the office of Air Chief Marshal Harold Bomber Command chief, when news of the Mohne success came through and, betraying what his friends say was the greatest excitement of his life up to then, he threw his hat in the air.

Then he went home and shared his satisfaction with his family in suburban Edingham, Surrey. He has two sons and two daughters. They were almost more concerned over the new 11-ton bomb than the Air Ministry.

"We've lived with the bomb, eaten with the bomb and thought of very little else but the bomb," said Mrs. Wallis of the period since her husband's latest proposed if five years ago. "All the kids are bomb experts."

Mr. Wallis explained the long period between his conception of the mighty weapon and its first use by pointing out that until recently Britain had no planes large enough to carry it.

"Squared Off"

7432

By Alice Brooks

A pineapple square, pick up work you'd hate to put down. It's 12 inches in No. 30 cotton, 16 in string; join the squares or use singly.

These hexagonal squares are useful as doilies or pinned as scarves, cloths, spreads. Pattern 7432 has directions, stitches.

To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to H. W. Saunders, Department Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man. Do not send money. Give your Name, Address and Pattern Number. Because of the slowness of the mails delivery of your pattern may take a few days longer than usual.

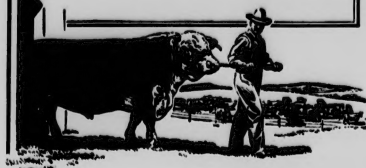

A SIMPLE TRICK

Sandwiches to be made and the butter as hard as nails, avoid that frustrated feeling and waste of time and butter by using a simple trick: Fill a small china bowl with boiling hot water and let it stand until the bowl is really hot. Then pour out the water and invert the bowl over a piece of butter. In a minute or two the butter is just right for spreading. 2613

WON THE GEORGE CROSS—Here are dramatic scenes climaxing the thrilling episode which won the George Cross posthumously for FO. R. B. Gray of Winnipeg and Sault Ste. Marie, when his aircraft, damaged by enemy fire, was brought down in the North Sea. These photos, taken by a R.C.A.F. photographer aboard the rescue aircraft, show (left) WO. G. H. Bulley (in water), who won the D.F.C., and the dinghy containing PL. G. E. Whitely, D.S.O., and FS. S. W. Ford, D.F.M., R.A.F. members of crew. Lower photo shows rescue aircraft on the water and the dinghy in circle. For the part he played in the action, WO. G. H. Bulley (inset) of Halifax, N.S., was awarded the D.F.C.

A GOOD BULL IS "HALF THE HERD"

The quality of your whole herd can be raised, with profit to you, by careful breeding with a well-bred bull. The same principle applies with every kind of livestock.

Realizing the importance of good male animals, you may wish to purchase superior individuals but lack the cash to do so.

Under such circumstances, the wise course is to discuss a loan for the purpose with your local bank manager. The Royal Bank of Canada is constantly making loans to farmers for this and many other productive purposes. If you have your eye on some desirable animal and need cash to make an advantageous "buy", talk your proposition over with the manager of our nearest branch.

If there is no branch convenient to your farm, you can still enjoy all the facilities of this bank by conducting your banking affairs by mail. For this purpose The Royal Bank supplies a special form which explains the simple procedure whereby you can make deposits, withdraw money, purchase drafts and money orders, etc., all by mail. Just write to any branch of The Royal Bank of Canada and ask for our Banking By Mail form SF 551.

THE COMING VICTORY LOAN

The good news of the past week from the several battle fronts, the high hopes that the European phase of the war may be over within a few days, is apt to lead some people into thinking that there will be no need for Canada's Eighth Victory Loan, scheduled to open on April 23rd. For the benefit of any who may be in that frame of mind, let us say that that would be a very mistaken attitude. Our government will require that money just as badly as ever. Even should German resistance in Europe collapse tomorrow, many months will elapse before our men and girls now overseas can be returned to Canada's shores. There are thousands of prisoners of war camps to be repatriated. That likewise will take months to accomplish. Many of those returning will have to be taken care of for months before they will be ready to again take their places in civilian life. Many will spend a long time in hospitals, at government expense. Millions of destitute people in liberated countries will have to be clothed and fed, a job in which Canada must share.

And above all, Japan is still far from being knocked out of the conflict. Just what part our country will play in this final phase of the war may not be fully determined. That it will be a heavy and a costly one must be obvious to all.

By no means a lesser side of the Victory Loan question is that of the part it is designed to play in price control on the Home Front. Today, when commodity goods are scarce and money is plentiful, the dangers of an

FARM YOUNG PEOPLE'S WEEK

The 27th Annual Farm Young People's Week to be held at the University will take place this year from June 7th to 14th. This course, open to all farm young people of Alberta between the ages of 16 and 27, is under the direction of the Department of Extension and the Faculty of Agriculture. Further information is available in a leaflet which may be secured by writing to the Department of Extension, University of Alberta.

Under amendments to the National Selective Service Act, Canada's minister of labour is empowered to pay transportation or other costs for the transferring of workers who cannot afford to move to a locality where there is a new job.

FARMERS look to the FUTURE

THE VETERAN'S LAND ACT

The Veteran's Land Act, 1942, provides for the establishment of war veterans on the land in different ways to meet varying circumstances. Three distinct types of settlement are available but in all cases there must be reasonable assurance that the veteran will be able to succeed.

Full time farming is the first way for which land settlement is provided. As a general rule only men with good, practical farming experience will be established in this way since it is most likely those brought up on farms or trained to farm work would be the most successful farming on their own account.

The second type of establishment, the small holding settlement, is the provision of a rural or semi-rural home on a small acreage of land near by the veteran's regular place of industrial or other employment. In order to

inflation debacle can be largely avoided by the buying of Victory Bonds, and hanging on to them. The investment which they offer is the very finest security you can possibly have for the years to come. The \$100 you lay away in bonds today is certain to be the means of buying you twice as much in five or ten years from now as it would today. That's why we advise: "Buy Bonds, and Hold Them".

quality for this type of enterprise the veteran must have a job that is likely to be continuous, have a pension or other income or a paying business of his own. The veterans who require a constant or recurrent hospitalization, regardless of the size of pension, are not counted in this class. There is no restriction as to the type of regular work in which the veteran engages while enjoying a small holding settlement, other than it must be a lawful occupation.

The primary objective of the Veterans' Land Act is to make it possible for a veteran to become the owner of the property he undertakes to purchase within his working days and to this end he is not being settled with a debt on the property which it would be impossible to repay. The State absorbs a substantial part of the cost of establishment provided the veteran fulfills the terms of his contract for ten years.

The Government may spend a maximum of \$4,800 for land and buildings for each veteran settling under the Act whether on a farm or a small holding and may provide a maximum of \$1200 for live stock and farm equipment. On small holdings much less than \$1200 worth of stock and equipment will usually meet reasonable needs of the veteran.

The veteran contracts to pay 10 per cent of the cost of the land and buildings in cash plus two thirds of the cost of the land and buildings on time up to twenty-five years with interest at 3 1/2 per cent per annum. Thus in the case of a maximum settlement contract, the veteran would pay \$480 down plus \$3,200 on time, or a total of \$3,680, as against the \$6,000 spent on his behalf. The State in such case absorbs \$2,320 of the cost. Agreement may be repaid at any time but a veteran cannot obtain title within ten years of establishment unless he repays the total outstanding cost of both land and buildings.

Veterans who already have farms of their own may receive first mortgage loans up to \$4,400 for the removal of encumbrances, the erection of permanent improvements and the purchase of livestock and equipment, providing the total does not exceed 60 per cent of the appraised value of the farm. The livestock and equipment maximum is \$2,500 and it must not exceed 80 per cent of the value of the farm.

While the Administrators of the Act have been and are purchasing suitable farms and small holding sites to set up a reserve from which returning veterans may make a selection, no veteran need select his property from

this reserve. He may settle anywhere within the Dominion provided he complies with the provisions of the Act and provided the suitability and price of the land be approved by the Veterans' Land Act Administration.

Calfhood Vaccination TO CONTROL BANG'S DISEASE

Farmers wishing to have calves vaccinated under the Alberta Bang's Disease Control Policy must submit applications not later than

May 1st, 1945 for Spring Vaccination OR October 1st, 1945 for Fall Vaccination

For full particulars see the nearest qualified Veterinarian or consult your District Agriculturist.

The Business Of Farming Requires RESERVES

Farmers always need "extra money" at seed time...

"READY MONEY" is the common term for what businessmen call "Reserve Funds". In any language, "Ready Money" is a handy thing to have.

None realize this need more than a farmer... for in the business of farming there are so many times that extra money is needed... for bills that must be met... to take advantage of opportunities... "to turn a dollar" with profit.

There are many times when a farmer needs "extra money". Without a reserve fund he must either sell something "for what he can get for it" or borrow, if he can get a loan.

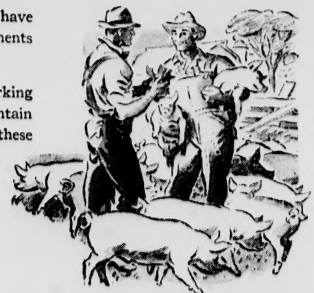

Victory Bonds provide a safe and convenient form in which to keep savings until needed. Victory Bonds earn double bank interest. When you have Victory Bonds you can get a loan from any bank at any time without any formality, and the interest the bonds earn pays a large part of the interest on the loan.

Victory Bonds can be bought for cash which you have saved or bought on convenient deferred payments with money as you get it.

Buy Victory Bonds to provide a reserve of working capital for your farm. Buy them, too, to help maintain your country's war effort. They pay interest these two ways.

"Extra money" is needed to pay harvest hands...

You can often make a profit if you have cash to buy young animals...

CARD OF THANKS

We, "The Melody Five" wish to thank the general public for their support and patronage during our three years of playing for dances. We are disbanding now, but are ready to play for the Victory Dance whenever that will be.
Mrs. Freda Shearer, Mr. Bill Tohm, Mr. Cliff Ekedstrand, Mr. Herman Tohm, Mr. Willard Franklin.

**VALUE OF MILK IN
POULTRY FEEDING**

(Experimental Farm News)

The feeding of either skim milk or buttermilk is not always appreciated for what it is worth in relation to poultry feeding states B. F. Cheney, Head Poultryman of the Dominion Experimental Station at Kentville, N.S. The farmer who has surplus milk available should consider its possibilities in cutting down his feed costs and the maintaining of a healthier, more productive flock. Milk used in poultry feeding will improve the quality of the product.

Most hatcherymen consider their birds are not receiving a satisfactory ration unless the mash fed contains milk powder or milk is available for the birds to drink.

In the brooding stage milk, usually sour, can be given in crockeryware or glass utensils, or as the chicks get older they may be given a moist mash spread over the dry mash once daily, feeding only what the chicks will clean up readily. If it is desirable to market young cockerels, a fattening mash may be mixed with milk and fed in this manner along with the regular feeding program, thus assuring a better conditioned brood.

On range, milk may be given to drink but care should be taken that the protein content of the growing mash is reduced so that the birds will not be forced into too early production due to an over supply of protein in the feeding.

There is no better way of balancing the feeding program of the laying pen than by supplying one or two gallons of milk daily per 100 birds, in addition to their regular laying mash. In the preparation of birds for the market milk is a valuable aid in getting the birds into the best possible condition so that they will dress out in the top grades. The fattening mash should be moistened with milk to a sloppy condition that will pour. Feed this mixture to the birds twice daily, giving them all they will clean up. Feed the birds well, but always have them looking for more.

BERGEN NEWS NOTES

"Sandy" Avery came up from Calgary with his wife and baby, and had a short visit with the J.J. Davidson family.

Mrs. Selma Savage of Rimby in visiting her sister, Mrs. John Smarud. James Gamble and Bob Payne of Didsbury were giving Niche Valley the once over.

Mr. and Mrs. Node and Edna and Gladys McGraw of Olds visited Fred Admussen on Sunday.

Miss Iva McCue, who is finishing Grade 12 at Bowden, is visiting her mother during the Easter holidays.

Edwin Clarke who is working at Sundre has been quarantined there because of Diphtheria.

Dave Weiss is home again after an absence of nineteen months at Norman Wells.

Mr. Lincoln Weber died at the Didsbury hospital Thursday morning. He has many friends to mourn his loss. Verna and Elworth have the sympathy of the Bergen people. He was buried on Monday, Herb Fisher Funeral Home of Olds being in charge of arrangements.

PAYING FARM MORTGAGES

Farm mortgage debts in Alberta were reduced 31 per cent in 1944 according to the report of the Dominion Mortgage and Investments Association. Amount owing by Alberta farmers on mortgages and agreements for sale is now less than half what it was seven years ago.

CARD OF THANKS

We wish to thank friends and neighbors for their kindness, sympathy and floral tributes at the time of the death of Mr. Ray Weber.
HOLLONGRIST FAMILY

CARD OF THANKS

We wish to thank our many friends for the kindness and sympathy shown during the time of our recent bereavement.
ELLSWORTH & VERA WEBER

CARD OF THANKS

We wish to thank our friends and neighbors for their kind sympathy and help at the time of the loss of our brother, Bert.

ZILLAH CRESSMAN,

Brothers and Sisters

The association bases its estimate on the experience of 30 life insurance, trust and loan companies. Since these companies have substantial investments in farm mortgages and agreements for sale, and since the farms which are security for these mortgages are located in all sections of Alberta, Saskatchewan and Manitoba, the experience of these companies can be taken as representative.

The total amount owing by Alberta farmers on mortgages and agreements for sale to these 30 companies at the end of 1944 was \$19 millions. This compares with \$27.5 millions at the end of 1943, and \$39.7 millions at the end of 1937.

C.E. Reiher Archie Boyce
CLERK AUCTIONEER

THIS IS AN OFFICIAL STATEMENT
BY YOUR GOVERNMENT ABOUT

COAL

This year the mines must be kept working during the Spring and Summer. Unless they get a steady flow of orders, they will lose their miners to other employment. It is absolutely imperative that the miners keep at work in the mines.

The transportation situation also is likely to become serious. The railways are now in a position to haul coal from the mines to the dealers' yards, but later will be busy hauling grain.

The coal dealers have had difficulties this past winter with delivery labour, and if they are to deliver all the coal required by their customers, it will be necessary to keep their employees busy every working day in the year.

So that your dealer may do his part in keeping the mines busy during this year emergency, get him to fill your bin as soon as possible.

DEPARTMENT OF MUNITIONS and SUPPLY

Hon. C. D. Howe, Minister

WORLD HAPPENINGS
BRIEFLY TOLD

Planes operated by the Trans-Canada Air Lines have flown across the ocean more than 265 times, delivered 140,000,000 letters and 750 passengers.

Ming, the London Zoo's panda, died after six years in captivity there. Valued at £2,000 (\$30,000) she was the rarest and most valuable animal in the gardens.

Sunderland and Catalina flying boats of R.A.F. Coastal Command were frozen in their Northern Ireland base when the sea froze over for the first time in 50 years.

Great Yarmouth, England, one of the Germans' "tip and run" targets, received 21 separate attacks on the night of July 9, 1941. In 219 raids on the town 219 people lost their lives.

Lord Bruntisfield, parliamentary secretary to the admiralty, told a Wednesday meeting that since the start of the war the Royal Navy had lost 47,000 men killed or missing, 13,000 wounded and 5,500 prisoners.

A 150-bed hospital built by the R.C.A.F. at Miller Bay, B.C., is to be taken over by the resources department and will be used to help combat tuberculosis among Indians in the area, it was announced.

The United States war shipping administration has approved the allotment of an additional Liberty ship to the Greek government. Fourteen ships now have been turned over to the Greeks.

The Algerian port of Oran, through which 7,000,000 tons of American war supplies moved during the first eight months of the North African campaign, has been officially turned over to the French.

Demand Is Heavy

People in Britain Told Food Rationing Will Continue Indefinitely.

Food rations in Britain will have to continue at their present level for the rest of this year and possibly into 1946, although the war seems likely to end soon.

Food Minister J. J. Llewellyn says the general food position continues "difficult" despite increased production for which British farmers should be given credit. Declines in production in Canada, the United States, Australia and New Zealand were involved and the freeing of enemy-held territory brought a problem.

"We were all right until we started liberating people," he said. "That made additional claims on the world's food supplies and we have to help meet those from stocks in Britain."

"With the extra demand and the shortening of supplies we are going to be shorter than I would like, but we should be able to carry on."

Asked specifically whether the sugar ration could be increased, Col. Llewellyn said:

"There is no chance of increase in the sugar or any other ration this year and possibly next."

MUST LIKE IT

James Rae, a farm worker, claims to be Scotland's biggest oatmeal eater. He said when he appeared as a witness in court at Glasgow that it takes half a pound of oatmeal for his breakfast, that he has oatcakes at dinner, porridge at tea-time, and oatmeal puddings for supper.

A back rake is a farm implement, and lignin.

(Roman Catholic), Edmonton, Alta.

Post-War Coaches

New Designs Shown At Private Exhibit In New York

New designs for railway passenger equipment, incorporating many improvements, were shown in New York at a private exhibit by the Pullman-Standard Car Manufacturing Company. The show, according to Thomas P. Grier, vice-president, represents an extensive program of research and development to help the railroads prepare for the greatest volume of travel the country has ever seen and to provide post-war employment.

From the familiar commuter local to transcontinental streamliners, the carriers are planning new concepts to make post-war travel faster, safer, more enjoyable and more comfortable than ever before.

One of the innovations is a "Day-Nite" coach with lounge seats, that conform to body contour. Three washrooms at each end of the coach and an out-of-the-way overhead baggage compartment are among the extra conveniences.

A "Threedeck" coach, built on three separate levels, has seats for 112 passengers, or a third more than today's typical coach. The passenger has a choice of conventional double-ended-facing seats on the top deck, outward-facing seats arranged back-to-back in the centre of the lower deck or two card rooms at either end of the car on the middle deck.

A new three-tier sleeping car with forty-two berth capacity is expected to bring the cost of sleeping accommodations on trains to a new low. In this car seats are built on one side, with the aisle along the windows on the other side.

Another new sleeping car is the duplex-roommate. By using an ingenious design, twenty-four private rooms have been put into the same space formerly needed for sixteen. Each of these rooms is expected to cost little, if any, more than a lower berth.

Pullman-Standard engineers have also designed an ultra-modern recreation car especially for motion pictures and dancing.

Wood consists chiefly of cellulose and lignin.

Back In Uniform

Britain's Oldest Living Holder Of The Victoria Cross

Britain's oldest living holder of the Victoria Cross, 74-year-old Robert Scott, is back in uniform after being rejected by the army at the outbreak of this war. The Boer War veteran holds the rank of aircraftman in the Royal Air Force and works in the R.A.F. examination office where airmen going on leave salute him as smartly as though he were the commanding officer.

Scott served with the Manchester Regiment, won the V.C. at Ladysmith and received it 45 years ago after he left his home at Kilkenny, County Down, and travelled to Belfast to enlist.

Then his wife saw an advertisement asking men over 40 to enlist for R.A.F. ground staff jobs. Scott caught the next train to Belfast. He looked up at him quickly when he took a bit off his age, but they let it go at that.

Buy Machinery

India Is Prepared To Purchase Heavily From Australia

India is prepared to buy the heavy machinery Australia can produce after the war, Sir Datta Singh, member of the Indian trade delegation now touring Australia, said.

He said that India is ready to take the place of Japan in purchasing Australian wool. India bought 4,000,000 pounds of Australian wool last year, he added, and would need more when India's post-war industrial plans develop.

THIS CURIOUS WORLD

War Badges

Should Not Be Worn Except By Those Who Have Earned Them

Entirely too much unauthorized use is being made of insignia that should not be worn except by those who have earned them. It is becoming common to see women and girls sporting on their dresses and coats the wings of pilots, navigators and other air crew of the Royal Canadian Air Force. Others appear wearing badges of rank, which they look on as decorations giving them a "smart" appearance.

A step should be put to this practice. Such badges belong only to those who have won them. Women, even though they be relatives of men entitled to them, have no more right to wear them than to put up medals which their husbands, brothers or sweethearts have earned. Using them so cheapens them. Windsor Star.

Canaries can't bear sounds that are lower in pitch than the highest reached by the singing voices of human sopranos.

Orang-utans and chimpanzees can be classified by fingerprints, just like humans.

War Criminal

Emperor Hirohito of Japan Likely To Be In This Category

Well-informed sources said that Emperor Hirohito was expected to be named an Axis war criminal because of Japanese atrocities, including the execution of American fliers after Lt.-Col. James H. Doolittle's 1942 raid on Tokyo.

These informants predicted the war criminal charge against the Japanese Emperor would be formally approved by the United Nations War Crimes Commission in the near future.

Hirohito's name was not included in the first list of Japanese war criminals but it was reported that several commission delegates, including Colonel Joseph V. Hodgson, acting American representative, urged action be taken against the Emperor.

Hirohito may be listed as a war criminal merely on the strength of his position as head of the Japanese state. Precedent for such action was established in a commission order approving charges against all ministers of the German government.

Still The Best

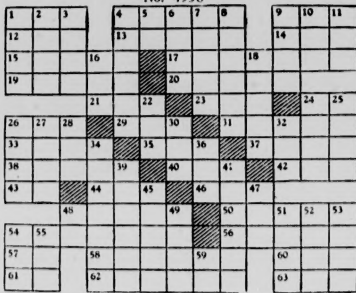

Iodine Is Much More Effective Than Any Other

Iodine, the germ-killing power of which was discovered 72 years ago, is still a much more effective antiseptic than any of the mercurial compounds on the market, the Mellen Institute announces after experiments to determine the efficiency of antiseptics. It was found that iodine killed standard germ cultures in one minute's time; and that five times as much of the mercurials had to be used to get results which were "one to 15 times as long."

HAVE THEIR PROBLEMS

The Brandon Star says: Canadian farmers do not have all the problems in the world. There are some exclusive ones in Great Britain just now. Kent is the most bombed county in England. Hollis Corner in fact. Here is a classified advertisement from a Kentish paper of recent date.

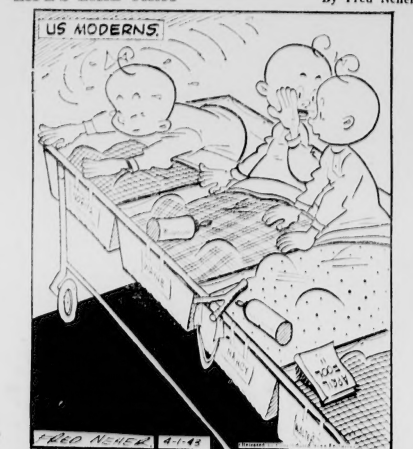

"Farmers in Hollingbourne Rural District—Bulldozers now working area. Anyone wanting bomb craters filled, apply Mr. Halfway Farm, Kingsnorth Ashford. Phone Ashford 584."

OUR COMPLETE SHORT STORY—PLENTY MAD

By FAYE McGOVERN

McClure Newspaper Syndicate

Jim Bowman, American newspaper correspondent, deliberately ignoring the young Chinese squinting before him, glanced through the dimming light of the old coal white compound at the chalk white cliff across the ravine. His very shrewdness and flatness blocked his last hope of escape from Ku Chang's hand of cut throats. A sturdy armed guard ascended from the narrow stairway that led down to the next level where the noisy band was preparing supper. If the mine had a lower entrance it was undoubtedly just as well guarded. He was definitely stuck!

"Melican man angly?" queried the Chinese. Bowman turned on him savagely. "Of course, you don't speak!" If I hadn't stepped to fish you out of the river neither of us would be in this fix!"

"No," the lad said placidly. "Melican man be safe out of mountains. Lin Sing be making nice dinner for chaps."

"What the deuce were you doing in the river if you couldn't swim?" "Merchant man throw um in. Lin Sing see something he want velly much. No can buy, so steal. Make merchant man plenty mad."

Bowman squinted at him. "Stole something eh? Why didn't he turn you over to the police?"

"Police too far away. No come into mountains. Fear Ku Chang."

"With good reason," Bowman said bitterly. "How that ignorant became leader of a guerrilla gang is beyond me. Did you hear what he called me when he found that little brass Buddha ash tray among my things?"

Lin Sing nodded amiably. "Japanese spy."

"Right! Just because it had 'made in Japan' stamped on it. Why, you can buy those things for a dime anywhere in the States. Little girl gave it to me as a going away gift."

A haunting surge of homesickness dissolved into helpless mounting anger. "What does Ku Chang do with his prisoners when he thinks they are spies?" he demanded.

"Puts bullet through head mostly," Lin Sing replied calmly.

"Good Lord!" Bowman jumped up, peered over the parapet. "Stuck up here like rats in a trap," he fumed, coming back to find Lin Sing poking through his beloved camera pack. "They get out of there. No use looking for anything else to steal. It's bullets for you, too, if we don't find some way out."

Lin Sing looked aggrieved. "Me no steal flim Melican man. Only want to know what is box with glass eye."

"That's my projection machine. I've been showing a me of our American cowboy pictures in Kifu as part of our Good Neighbor Policy."

Lin Sing's face brightened. "I see some one. Velly good. Guns go bang-bang! Devils with feathers in pistols go 'bang-see-see!' Grinning, he lifted the machine from its box. "Maybe so Wu Chang no have hear of Good Neighbor 'wh'cham'-callin'."

Bowman looked amazed. "Say—do you suppose... His eyes swung to the cliff. Its smooth, chalky whiteness would make a perfect screen. "Son," he said more kindly. "I'll have to hand it to you. Here you're in as much danger as I am, but instead of throwing up the sponge you make up games. Haven't heard a whimper out of you."

Lin Sing ducked his head. "You never see Lin Sing before, yet you save unworthy one's life. Most grateful to honorable one."

Discovered by the lad's sudden change of demeanor, Bowman gathered up his paraphernalia carried it to the parapet and set it up. "Bring the films," he called.

There was no answer. He turned, puzzled. Lin Sing was nowhere in sight. A hurried search of the mine cave failed to produce him. "Lying devil!" Bowman muttered furiously. "Probably knows these caves as he loves the back of his hand and has slipped out on me!"

But a year in China had taught him the futility of railing at fate. He went doggedly back to the parapet and proceeded with his task. Perhaps when Wu Chang saw that his pictures were of American cowboys and Indians he'd change his mind about the spy theory and release him.

He clicked a switch. Dark figures leaped to life against the white cliff moving across it, phantasmic. The many chatter below suddenly ceased. Bowman grinned. At least he'd impressed them.

Suddenly the cliff became blank. Bowman looked down at his projector in dismay. The mechanism was still whirling. The film! Moisture must have spoiled it. He stiffened, listening to excited jabbering below. He was in for it now. They were probably furious, cheated.

A smooth cheese sauce and fresh green vegetables are delicious meat accompaniments for the fish puff.

One new savory and economical seafood entrée that will be equally popular throughout the year is Fish Puffs. These airy, individual fish soufflés are made with cooked, flaked fish, rolled cream, milk, eggs and a happy assortment of seasonings. These are baked in custard cups in pan of hot water and the all-white-type dishes are to be served immediately after removing from the oven.

Put 3-purposes Vaso-nol up each nostril. It (1) shrinks swollen membrane, (2) soothes irritated, (3) relieves transient nasal congestion... and brings greater breathing comfort. Follow the complete Vaso-nol directions in folder. **VA-TRO-VICKS**

Bomber Command

The Background To The Twenty-Thousand Pound Bomb

London commentators supply the following figures: During February, 1945, Bomber Command dropped 45,700 tons of bombs. Striking an average for the past four years, the tonnage dropped by R.A.F. Bomber Command is:

(A) March, has been approximately 68% greater than in February.

(B) April, has been approximately 21% greater than in March.

(C) May, has been approximately 9% greater than in April.

(D) June, has been approximately 19% greater than in May.

It is also pointed out that the huge scale of air attacks, as well as the constant improvement in weapons is not the result of a special effort being applied at a critical moment to tip the balance and bring the war to a speedy end. There is nothing even surprising about it. It is no more than the Allied authorities have always foretold, the logical and inevitable outcome of limitless Allied resources: industry, manpower, and raw materials. Not only can it be indefinitely sustained, weather permitting, but it will continue to increase so long as the war lasts.

RECIPES

MILK FISH SOUFFLE

That seafoods are versatile is a happy fact that menu planners discover each year when they accept the annual challenge of the days of abstinence called Lent. There need be no monotony in menus when recipe books are well stocked with recipes starting seafoods in many of their different delicious roles.

One new savory and economical seafood entrée that will be equally popular throughout the year is Fish Puffs. These airy, individual fish soufflés are made with cooked, flaked fish, rolled cream, milk, eggs and a happy assortment of seasonings. These are baked in custard cups in pan of hot water and the all-white-type dishes are to be served immediately after removing from the oven.

A smooth cheese sauce and fresh green vegetables are delicious meat accompaniments for the fish puff.

FISH PUFFS

3 cups oven-popped rice cereal
1 teaspoon salt
1 tablespoon Worcestershire Sauce
2 tablespoons chopped onion
2 tablespoons chopped green pepper

1 cup chopped celery
2 cups milk
2 eggs, separated
1 cup cooked flaked fish

Roll oven-popped rice cereal into fine crumbs, combine with salt. Worcestershire Sauce, onion, pepper, celery and milk in a saucepan and cook slowly, stirring occasionally, for about ten minutes. Beat egg yolk and add to mixture slowly; cook over low heat five minutes longer. Add flaked fish. Beat egg whites until they are stiff but not dry and fold into first mixture. Pour into buttered custard cups or baking dish set in pan of water and bake in moderately hot oven (425 deg. F.) for about ten minutes. Serve at once.

Yield: Eight servings (individual cups).

Real Life-Saver

Red Cross Primus Stove Used in French Military Hospital

A primus stove does not seem like a life-saving invention, but in a military hospital in France it turned out to be just that, according to information received from a Canadian Red Cross welfare officer in France, Miss Ruby Cobbett. In one afternoon and evening, 29 operations were performed on wounded soldiers that were brought into this advanced medical hospital to perform those operations under the little stove that had been furnished by the Red Cross when no other means of coping with the situation were available. "The nursing sister said it would have been impossible to perform those operations without that little stove," Miss Cobbett writes.

Miss Cobbett is one of a group of over 500 Canadian girls who are working overseas as volunteers with the Canadian Red Cross Corps. Working in co-operation with the Canadian Army Medical Corps is one of their important jobs, but from Newfoundland to Italy they are serving the fighting men in such jobs as driving ambulances, visiting the sick and wounded in hospital and bringing them comforts and necessities, teaching handicrafts and doing jobs too numerous to mention.

Where Canada Leads

Canada leads the world in wheat exports, leads the world in electrical distribution per capita, leads the world in rural telephones per capita.

Canada has the world's largest hydro-electric power development, has the world's largest industrial exhibition (Toronto), has the world's largest combination elevator (Port Arthur), has the world's largest transportation system, has the world's largest pulpwood resources, has the world's largest inland port (Montreal).

Canada has one of the world's largest gold mines, has 90% of the world's nickel, has 85% of the world's asbestos supply, has 90% of the world's supply of cobalt.

Canada has the world's greatest railway mileage per capita, has the world's greatest wild life sanctuaries, has the world's greatest buffalo herd.

Canada operated the first electric railway, built and used the first rail way sleeping car, built the world's first submarine telegraph, built the first compound steam engine, built the first electric auto, built the first steam boat to cross the Atlantic.

Canada won the world's international wheat championship 27 times, originated the idea of Standard Time, is the home of the discoverer of insulin, is the home of the inventor of the telephone, is the home of the discoverer of helium gas, and is the home of the discoverer of paper making from pulp.

FAST ALL RIGHT

The other day an excited woman rushed in and threw a faded apron on the counter in a department store. "Look at this," cried the customer. "Just look at it!" said the girl behind the counter. "What about it?"

"What about it?" shouted the woman. "Why, when you sold me this apron you said its color was the color. And what happened? The color came out at the very first washing!"

The girl looked surprised. "Well," she inquired, "wasn't that fast?"

Diamonds are not inflammable in air, but will burn at 550 degrees C. if put in pure oxygen.

"CALALATA" TEA

Curator Of Pagan

Guardian Of Treasures At The Ancient Capital Of Burma

At Pagan, the ancient capital of Burma, U La Po Win, a Burmese Government archaeologist, has for three years functioned as the secret and self-appointed guardian of the ancient treasures against the ravages of war.

When Mandalay was threatened in the spring of 1942, U La Po Win sailed down the Irrawaddy to Pagan with all the official records he could carry, including those pertaining to Pagan. Luckily no Japanese troops were quartered in that area.

This Burmese scholar, then, made himself responsible for the protection of the city's priceless historical treasures. He buried the documents he had brought with him from Mandalay, and as many of the other relics as he could. He stood the larger statues of Buddha that he was not able to bury, outdoors so that Allied pilots would then see them from the air and would be sure not to fire at them.

U La Po Win with his wife and children lived in the cells of one of the old monasteries and to earn a living, bought a boat and traded on the Irrawaddy, sailing down to lower Burma with jaggery (a coarse sugar), tamarind and groundnut oil, and bringing back rice and salt. This trade exposed him to straining aircraft by day and river pirates by night.

DR. CLARENCE M. HYNES, Toronto, general director of the National Committee for Mental Hygiene (Canada), who is conducting a survey of Saskatchewan mental services at request of the Department of Public Health. He has been invited to make recommendations regarding both treatment and preventive services. A report is expected in April.

GARDEN NOTES

For Special Locations

Once upon a time most flowers had to be planted in full sunlight and rich soil if any sort of a show was to be expected. The dark corners of the garden and those places where soil is naturally poor just simply had to go without. All that is changed now. Listed in the seed catalogue will be found flowers that actually prefer darkish corners, in fact will grow in exposed to full sun from morning till night. And these flowers often have brilliant coloring too. The abnormous robed begonia is an example. Then there are flowers like portulaca, wonder, in fact will grow in exposed to full sun, and poor dryish soil. In between two extremes are hundreds of others listed in very good Canadian seed catalogue that are sufficient to meet any conditions from Akavik to Plover Island.

Soil Improving

The best enricher for poor soil is well rotted manure, according to experts, but often this material is difficult to obtain. Sometimes, too, it is not very suitable, particularly where the garden is close to the house or where it must also serve as a playground for children.

In these cases a good garden chemical or commercial fertilizer is used and this should be applied carefully according to directions. Often this material will burn tender flowers or vegetables. Experienced gardeners usually advise dissolving fertilizer in water and applying as a solution or sprinkling it up and down the rows, being careful to place it close to but not actually touching the plants.

Commercial fertilizer is generally regarded as a quick plant food which gives astonishing results. It will bring vegetables and flowers to the usual tenderness. It is also helpful in transplanting flowers, vegetables and nursery stock so that they get over the shock of moving.

To keep up fertility of old established gardens or build up light or poor soil, old gardeners usually dig in all weed growth and other human refuse as soon as they are ready to pile at the back of the garden. Stray manure will dig in and keep buried until it rots well gradually turn sand into a rich loam which will absorb and hold water and make ideal garden soil.

Heavy land also benefits from dug in weed and other green growth. The experienced gardener in handling any sort of soil, but especially sandy ground or heavy clay, seldom throws away any weeds or grass clippings.

Saving The Back

Wherever possible use long handled spades, forks, rakes and hoes to prevent stooping, also little special contrivances with long handles. Minimum requirements are a rake, hoe and either a digging fork or spade.

For example, when youngsters come home from school in the afternoon and ask for something to eat, they are really hungry. By mid-afternoon, a good deal of the energy they obtained from lunch has been utilized. Especially in cold weather when many additional heat units are needed to provide resistance for outdoor play an after school lunch is a necessity.

Soft drinks of root juices mixed with water were sold as early as the Roman games in the first century B.C.

The giraffe can live longer than a camel on a desert without water, run faster than a horse and is voiceless.

New York City contains more Russians than does Kiev, Russia.

Any of these snacks is light enough so as not to hinder appetites for the regular meal to follow. Many carefully supervised nurses serve crackers and milk to the children regularly at mid afternoon for these reasons.

The Little Weekly Paper

Folks may prize the city dailies with their editorial views. With their heaviest circulation and their telegraphic views.

With parliamentary speeches and the news of old party squabbles and their so-called brainy essays which are always dry and long. They may prize the great trade journals or the classic magazines. With its illustrated stories and the news in between.

But the one I hail with gladness which I long so for to come is this little weekly which they send me down from home. Taint no twenty page edition for it, but it's full of news.

But they breathe the breath of comfort and always long for more, what for it would be an artist for at times its dim and blurred. But it only serves to interest, and I make out every word.

It is mostly bright and cheery, though sometimes my heart is bled. As I read a black-lined notice that some old-time friend is dead. But there's far more joy than sorrow in the messages so sweet.

Of that little weekly sheet, that away back country sheet. From Andy Clarke's "Neighborhood News," broadcast, CBC stations in Toronto.

It is considered grand larceny to steal a postage stamp.

A REALLY NOBLE FAMILY—Two brothers and the wife of one decorated by King George VI at a recent investiture at Buckingham Palace. They are (left to right): Maj. Anthony Noble, Queen's Own Cameron Highlanders, who received the Military Cross; his wife, Mrs. Mary Noble, who received the insignia of a member of the British Empire for her work in Middle East H.Q.; and Maj. Nigel Noble, of the Black Watch, presented with the Military Cross.

pital on April 6th, a girl.

EVANGELICAL CHURCH NOTES

"The Price of Souls" will be the
theme on Sunday, April 15th, at 10:30
a.m. We need Christians today who
have a vital concern for souls, in order
to extend the Kingdom of God upon
earth. Sunday school will be held at
11:30 a.m. and at Bethel at 2 p.m.
Church service will be held at Bethel
at 3 p.m. The Youth Fellowship will
have charge of the evening service at
7:45 p.m. when Mr. K.A. Cassidy will
be the guest speaker. We extend a
cordial invitation to all to attend these
gospel services.

URGED TO PUT IN COAL SUPPLY

We have just received a letter from
the Coal Controller advising that if
last winter had been severe, there
would have been a shortage of coal.
They advise people to put in a few
tons now to keep the miners busy and
to keep them from moving from
Drumheller.

We have arranged to make it easy
for folks to get from two to six tons
of coal in the next two months, by
delivering it at a price per ton to be
announced.

elected district representative of the
Alberta Teachers Association, at-
tended a meeting at Olds on Wednesday.

The Rangers will hold a novelty tea
in the Old Westerdale M.D. building
on Saturday, April 25th. Keep the date
in mind.

Miss Donna Moorhouse of Ponoka
spent the Easter holidays in Didsbury
with her grandmother, Mrs. O. W.
Stauffer, and returned home Saturday
evening.

NEWS ITEMS FROM THE WEST

(Received too late for last issue)

Mr. and Mrs. Herbert Gaetjen of West-
coast entertained at dinner Easter
Sunday in honor of their daughter
Marjorie's twelfth birthday. Those
present included Mr. and Mrs. C. Lar-
son and family of Carstairs, Mr. and
Mrs. L. Jacobsen and Duane, Mr. and
Mrs. John Stevenson and Gloria-Jean,
and Mrs. Janet Stevenson.

Leslie Gaetjen is spending his Easter
vacation with his grandparents,
Mr. and Mrs. H. Papke of Elktion.

RATEPAYERS MEETING APRIL 14

There will be a meeting of the rate-
payers of Township 31, Ranges 5 and
6, W.3th, in the Bergen school on Sat-
urday, April 14th at 2 p.m. to hear
the reports of A. Moore, foreman, and
to elect a foreman for 1945 and 1946,
and any other matters that may come
before the meeting.

PRINTING...

Job printing is an important part of our busi-
ness, and we are ready to serve you at all times
in our printing department.

We have just added considerable new job type
to our plant, and are thus enabled to turn out
better and more modern printing.

Check over your supplies now, and if there is
anything in the printing line you need, give us the
order immediately, and do not wait till you are
down to the last letterhead or envelope.
